

## Laser focused on premium quality products & premium level service.

From imported woods from around the world to North American woods, ETT Fine Woods is here to help you with the right wood for your project. We can help you find the right wholesale lumber products

200,000 bdft of kiln capacity

NHLA graders grading lumber after the kiln

On-site remanufacturing

## More than your average distributor – with on-site processing and manufacturing.

While many distributors simply purchase lumber already processed, ETT Fine Woods controls more of the manufacturing process, allowing us to offer a higher concierge level of service.

Custom moulding manufacturing facilities

In-house trucking available

Over 2 million bdft of warehouse storage
