# FIJIAN MAHOGANY

TRUE GENUINE MAHOGANY LUMBER

*Swietenia macrophylla*

## THE WORLD'S MOST ICONIC HARDWOOD — RESPONSIBLY GROWN IN FIJI

Fijian Mahogany delivers the warmth, beauty, and performance of TRUE Genuine Mahogany, not an imitation species. Planted after World War II and harvested under strict government oversight, it is one of the only fully legal, plantation grown Genuine Mahoganies available today.

Its rich color, fine grain, and outstanding stability make it ideal for high-end woodworking, millwork, architectural applications, and furniture.

### Benefits Include:

»» **TRUE Genuine Mahogany (*Swietenia macrophylla*)**  
The same legendary species prized for centuries in fine furniture and premium millwork.

»» **Extremely Stable — Kiln Dried between 8%-10%**  
Advanced kiln drying minimizes movement, cupping, and end checking for reliable performance.

»» **Exceptional Workability**  
Machines, planes, glues, and fastens beautifully — perfect for craftsmen and production facilities.

»» **Warm, Uniform Color + Fine Grain**  
Consistent visual quality ideal for interior and exterior architectural projects.

»» **Accepts Oils and Stains Easily**  
Finishes like fine furniture or can be left unfinished to weather naturally to a silver-gray patina.

»» **Legal, Sustainable & Responsible**  
Over 40,000 hectares of plantation-grown Mahogany support local Fijian landowners while protecting natural rainforests.

### Available Thicknesses

»» 4/4, 5/4, 6/4, 8/4, 10/4, 12/4  
»» Average width 8"; Lengths from 6' to 19'

### Lumber Applications

»» **Furniture & Fine Woodworking**  
Chairs, tables, benches, custom projects.  
»» **Architectural Millwork**  
Trim, panels, mouldings, stair parts, column wraps.  
»» **Tongue & Groove Ceilings & Paneling**  
Beautiful, warm ceiling finishes for porches and interiors.

### Sustainability you Can Trust

Fijian Mahogany is plantation-grown from Honduras-origin seed stock, managed for long-term environmental responsibility, and harvested at sustainable levels — offering the beauty of Genuine Mahogany without harming natural rainforests.

## DECKING & SIDING

BEAUTIFUL • SUSTAINABLE • DURABLE

### PREMIUM HARDWOOD FOR ALL EXTERIOR APPLICATIONS

Fijian Mahogany delivers exceptional outdoor performance with natural durability, superior stability, and a warm, timeless appearance. As a plantation-grown TRUE Genuine Mahogany, it offers the beauty of a legendary species with full legal and sustainable sourcing.

Perfect for decks, porches, cladding, screens, fences, soffits, and outdoor structures.

### DECKING

#### Why Fijian Mahogany Decking?

- »» **Class II Durability — 20+ Year Lifespan**  
Long-lasting performance in demanding outdoor environments.
- »» **Extremely Stable in Exterior Use**  
Kiln dried to ~12% moisture to reduce cupping, movement, and end checking.
- »» **Naturally Rot & Mildew Resistant**  
Reliable in humid, wet, or near-water installations.
- »» **MCA-Treated for Enhanced Protection**  
Sapwood uptakes treatment for increased longevity and durability.
- »» **Beautiful Warm Color**  
Rich golden-red tones create a premium hardwood deck appearance.
- »» **Accepts Oils & Finishes Easily**  
Can be maintained with deck oils or allowed to age into a natural silver patina.
- »» **Sizes**  
5/4x4, 5/4x6, 1x4, 1x6

#### Decking Applications

- »» Residential & commercial decks
- »» Porches, verandas & pergolas
- »» Boardwalks & marina/water-adjacent installs
- »» Pool surrounds
- »» Outdoor seating, benches & built-in components

### SIDING

#### Why Fijian Mahogany Siding?

- »» **Excellent Exterior Stability**  
Reduced movement makes it ideal for cladding and architectural façades.
- »» **Natural Decay Resistance**  
Handles moisture, sun exposure, and changing seasons with ease.
- »» **W.U.I. Fire Standard Approved**  
Meets California Wildland–Urban Interface requirements.
- »» **Modern or Traditional Appeal**  
Works equally well in shiplap, T&G, and architectural rainscreen profiles.

#### Siding Profiles

- »» Shiplap
- »» Tongue & Groove
- »» Rainscreen
- »» Custom profiles available

#### Siding Applications

- »» Residential cladding
- »» Commercial façades
- »» Privacy screens & fencing
- »» Porch ceilings & soffits
- »» Accent walls & feature panels
- »» Pergolas, shade structures & exterior architectural elements

#### Finish Options

- »» Natural penetrating oils
- »» Exterior stains or coatings
- »» Clear UV protection
- »» Or allow to weather into a silver-gray tone
